

## CLUB SERIES CSLR RECUMBENT LIFECYCLE BIKE

Designed with the same technology and durable components that define our tradition of excellence, the Recumbent Lifecycle<sup>®</sup> Exercise Bike brings our legacy of fitness to those who prefer a seated position. This bike offers a refreshed, non-intimidating console with more options for personalized entertainment, which helps exercisers complete more enjoyable workouts.

### PERFORMANCE FEATURES

#### HEART RATE MONITORING

Lifepulse™ digital heart rate monitoring hand sensors are conveniently placed on the handlebars to provide precise heart rate monitoring, and Polar® telemetry provides accurate, “hands-free” heart rate monitoring. (Telemetry requires optional chest strap.)

#### SELF-POWERED CONVENIENCE

Cordless, so you can place your bikes anywhere in your home.

#### RELIABLE BELT DRIVE SYSTEM

Custom-designed system is quiet and virtually maintenance free.

### HIGHLIGHT FEATURE

#### COMFORT AND CONVENIENCE

The dual-level console lets users manage their workouts and read at the same time. Plus the accessory tray is conveniently placed at the user's side.

#### Greener with EVERY MOVE

Certain components of our cardio equipment are no longer painted during the manufacturing process, which reduces our carbon footprint. This initiative also lowers the amount of Volatile Organic Compounds (VOCs) released into the air as pollutants.

### RECUMBENT BIKE DETAILS

- Deluxe back support and seat
- Wide Ride™ pedals
- Side and front handlebars
- Dual-level alphanumeric LED console
- Heart rate monitoring
