 H: 65" (165 cm)

PARAMOUNT
 INNER / OUTER THIGH FS-52

1 Read all warning labels.
 • If unit appears damaged or inoperable, do not try to use or fix.
 • DO NOT use if weights are pinned in an elevated position. Seek staff assistance.
 • Choose light resistance when using machine for first time and train at controlled speed.

INNER THIGH
 1 Position thigh pads against inside of leg above knee.
 2 Lift adjustment disc handle and spread pads to desired setting. Release handle making sure the adjustment disk is engaged.
 3 Grasp hand grips. Support back with pad.
 4 Bring your legs together then apart as far as comfortable.

OUTER THIGH
 1 Position thigh pads against outside of leg above knee. Lift adjustment disc handle and close pads to desired setting. Release handle making sure the adjustment disk is engaged.
 2 Grasp hand grips. Support back with pad.
 3 Move legs apart as far as comfortable and return together.
