

The CG800 eGlide Trainer was designed for groups/classes or individuals that like to create their own workout scenario in the commercial environment. It will appeal to both runners and cyclists as a cross training modality that is full weight bearing, without the impact.

The unique Patented Direct Drive System, optimally weighted pedal arms, dual-action handlebars, 2° inverted foot pedals, and stride length combine to create the perfect formula to assure a frictionless stride. This motion creates what we call the “floating” effect. Once your clients reach a certain RPM, they will start to “float” and experience the smoothest possible gait pattern.

FEATURES

- Patented Direct Drive System produces a unique workout experience
- Infinite resistance adjustments to satisfy every fitness level
- Telemetric Heart Rate for hands free monitoring
- 30 lb. flywheel generates the optimum amount of inertia
- Battery powered console means there is no need for electricity
- Full Commercial Warranty

CONSOLE FEATURES

The intuitive CG800 console is easy to use and read. Simply set the workout time and get started. The level of effort is manually adjusted by turning the micro-adjustment knob below the console. This moves the rare-earth magnets toward the flywheel to increase resistance. The magnets and a perfectly balanced flywheel work in conjunction to create the smoothest possible feel. Once your clients experience the CG800, they will seek it out for both group and individual workouts.

Console	4-Window LCD w/Simple 4-Button Operation
Heart Rate	Telemetric (Chest strap sold separately)
Resistance Drive	Infinite Levels
Train Power	Magnetic Resistance w/Variable Adjustable Know & Hand Brake
Flywheel Pedals	3 AA Batteries
Frame	30 lbs.
Dimensions	Oversized w/ 2-Degree Inversion, Built-In Sweat Drains
Product Weight	Heavy-Gauge High-Strength Steel, Zinc Undercoating w/ Durable Powder-Coat Paint
