GDCC210
Compact Functional Training Center

Core stability training can lead to improved balance, coordination and stability. By efficiently working your body's stabilizer muscles through a limitless number of exercises, the GDCC210 Functional Training Center offers strength-building results to users of all sizes.

Unrestricted multiple planes of motion approximate the muscle activity required for many of the activities you do in everyday life. The Body-Solid GDCC210 features ergonomically designed adjustments and interchangeable cable handles engineered to put hundreds of strength-building exercises within your grasp.

With a space-saving footprint, dual independent weight stacks, user-friendly ergonomics and adjustability and precision-fitted components, the GDCC210 Functional Training Center isolates an unbeatable value in today's advanced fitness market.

Dimensions: 83.5"H x 63.5"L x 40.5"W

Special Features

- Lifetime warranty
- Vertical carriage system features fiberglass reinforced nylon pulleys and locking, universal attachment connections
