CSD-LPCE LEG PRESS / CALF EXTENSION

LEG PRESS

CALF EXTENSION

The Leg Press and Calf Extension machine comes equipped with a footplate and adjustable backpad angle which provides ideal positioning for both leg and calf pressing. The four-bar linkage in the footplate allows users to maintain ergonomic ankle alignment throughout each movement, as well as an angled lower section to help with calf press positioning. An integrated rep counter keeps users motivated set after set, while built-in storage on the top cap keeps accessories close by.

CSD-LPCE LEG PRESS / CALF EXTENSION
